# ABOUT THE ARTIST

Madhuri Bhaduri, born in 1958 in Pune, has been a significant presence in the global art scene for over four decades. A national-level Badminton and Squash player during her school and college years, Madhuri's talents extended beyond sports. She pursued a diploma in French from the Alliance Française de Pune and briefly explored Hotel Management, completing specialized courses in Baking and Housekeeping from FCI Pune.

In 1988, Madhuri graduated with a Master's degree in painting from SNDT Mumbai University, though her artistic journey began in the 1970s. Her first solo exhibition, held in Pune in 1986, was met with appreciation from notable figures such as the Late Maharani Gayatri Devi and the Late Jamshed Bhabha, giving her the confidence to pursue a professional art career.

While Madhuri's primary medium has always been oil painting, her artistic practice has evolved to include unique sculptures and murals crafted from scrap metal and recycled materials. To deepen her knowledge of the art market, she completed a short course in Finance and Art Market Studies from Sotheby's Institute of Art, London, in 2016.

Her illustrious career includes over 50 solo exhibitions and participation in more than 140 group shows in major art galleries worldwide, from New York to Delhi. Her works feature in over 400 prestigious collections globally, held by institutions and private connoisseurs alike.

Madhuri's contributions to the art world have been recognized with numerous accolades, including the Sarojini Naidu Award, the Times of India Femina Pune Art Award (2019-20), the Amrita Shergill Rashtriya Kala Puraskar from the National Institute of Fine Arts (NIFA) in New Delhi, and the Exceptional Woman of Excellence in Art award from the Women's Economic Forum (WEF) at The Hague. In 2018, she was honored with the Entrepreneur of the Year Award by the Bharat Nirman Foundation.

Madhuri is an active participant in the art community, serving as an adjudicator for art competitions, giving lectures, conducting workshops, and participating in art camps, residencies, and panel discussions. Her work has been extensively featured in globally recognized publications.

A committed philanthropist, Madhuri supports numerous charitable causes across India, continuing to inspire both through her art and her contributions to society.

# Foreword

“On first instance, Madhuri Bhaduri's works evoked a feeling of tranquility in me. A bridge connecting the tranquility of the natural world with the emotional depth inherent in human experience. Her meticulous use of color and form encourages us to reflect on our surroundings and inner landscapes, transforming the canvas into a space of contemplation and reverie.

The moons symbolize the ethereal quality of nature. Madhuri presents a serene ecosystem that evokes a sense of peace and harmony with nature. These symbolize emotions and perceptions. Each piece resonates with a quiet yet profound energy.

The boats in the seascapes symbolize a journey or a transition, evoking themes of exploration, migration, or personal growth. There is always hope ...light during the journey. Inviting introspective moments from the viewer.

In her Horizons series, Madhuri evokes a sense of peace and harmony with nature. The white strokes suggest purity and stillness, often symbolizing the ethereal quality of nature. The green and yellow hues, meanwhile, embody life, growth, and renewal. Together, these colors create a meditative space where the viewer can immerse themselves to reflect on their inner landscapes.

By engaging with Madhuri's art, we embark on a visual journey that transports the viewer into his emotional landscape—keeping them in a state of inner reflection that propels our natural spiritual evolution. Welcome to Madhuri's Mellifluous language of colors.”

- Aarti Singh, Curator, Polka Art Gallery.

“Madhuri’s canvases bring out the beauty of her work in every possible hue, tone, and shade. She speaks with her brush and formulates her many experiments. She focuses for hours on her favorite medium, oil, and her canvases are swatches of color, line, and figure, defining either light, water, shadow, sun, moon, and clouds, starting from the center and spreading evenly over the surface.”

-Dr. Pheroza. J Godrej, Art Historian and PhD

Where the abstract and concrete collude, a fusion of their allusions of land, sky, water and the transcendent self, herein lies Madhuri's search for a dynamic dialogue with the cosmic spectrum. The metaphors are intrinsically personal; but as a receiver of the gift, her creativity conjures forth a timeless reflection and passionate embrace of prana (life force and spirit).

“Freely handling paint with mature strength, yet disarming flexibility, these compositions reflect a quest to liberate the self. Her magic mountains and color fields catapult vision into space, with “the heart to conceive, the understanding to direct, and the hand to execute”
